© BIENNIAL INTERNACIONAL DE PAISATGE

To celebrate the 20 years of the International Biennial of Landscape of Barcelona, ??it was proposed to make a video, sponsored by the Master of Landscape of Barcelona FPC to present in the 10th edition, last September 2018 in Barcelona.

Let's review those projects that for 20 years and 10 editions have marked the spirit of the International Biennial of Landscape, moving the constant evolution of landscaping to a glance towards the present and the futures that are presented.

Is charged with ALEX SARDÀ / 15-L. FILMS a mommy piece and a series of capsules in which the camera walks through the landscapes, accompanying real characters, found on site, with which we discover the use and form of each one, beyond its original design. The

documentary value and aesthetic of the piece create a journey that, with no eagerness, transmits and makes the essence sought by the Biennial grow.

The piece was shot in 16 mm in spaces awarded and recognized by the Biennial in Catalonia. His presentation served as closing of the present edition of the festival and he was awarded a gold award at the advertising festival of Catalonia and a silver LAUS in the last edition of ADG-FAD this July.
