Tarragona

Start date : Saturday,

18 February, 2023

Time : 10:30 a.m.

Tornar ^[2]

Guided visit to the rehabilitation of the office building of the former Headquarters of the Port Authority, work presented in the Rehabilitation category: Restoration, rehabilitation or reform works of the XII Alejandro de la Sota Biennial, by the architects Elisabet Prat Castellví and Anna Adserà Quesada, P+A Architects SCPP.

In the 1970s, Josep Maria Garreta designed the unique Brutalist-style building to house the Tarragona Port Authority Headquarters. The building was left in disuse for a few years because the offices were too small and they were moved. In an effort to preserve it, a comprehensive rehabilitation project was drawn up to bring it back to life.

It will also be submitted to the Tarragona Port Authority contest for technical assistance for the drafting of the urban transformation project around the APT headquarters, where we will have the intervention of the President of the Port of Tarragona, Saül Garreta Puig.

At the end, the traditional free vermouth will be served.

The visit will begin at 10:30 a.m. and we will meet in front of the offices of the Tarragona Port Authority.

Prior registration is required. Limited places. Sign up!
